NAME OF THE STAFF –MR.S.M.AUSEKAR

NAME OF THE TOPIC-MIND MAPPING

## Background

Mind map was first popularized by British popular psychology author and television personality Tony Buzan. The semantic network was developed in the late 1950s as a theory to understand human learning and developed further by Allan M Collins and M Ross Quinlan during the early 1960s.

It Help our students in :

- Structure the information at hand
- Fostering Creativity
- Improve memory and recall
- Better connections with topic

A visual way to make sense of the world

## What is Mind Map

- Diagram for representing tasks, words, concepts, or items linked to and arranged around a central concept or subject
- Non-linear graphical layout
- Build an intuitive framework

**Central Idea:** The main idea, subject or focus is crystallized in a central image . It emphasizes the key thought

**Branches:** The main themes radiate from the central image as 'branches' – associates The branches comprise a key image or key word drawn or printed on its associated line .The branches form a connected nodal structure.
